

A large, stylized white tree graphic is positioned on the right side of the page. The tree has a thick trunk that tapers slightly at the bottom and branches out into several large, rounded, overlapping shapes that form the canopy. The background is a solid orange color.

San Ramon Valley Education Foundation
Annual Report 2011/2012

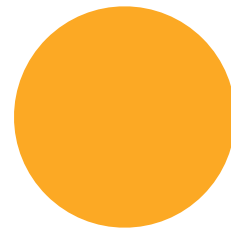

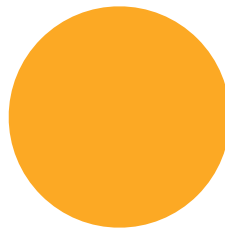

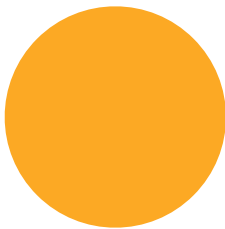

Who We Are

Mission and Purpose Statement

The San Ramon Valley Education Foundation is the primary fundraising organization working in partnership with the San Ramon Valley Unified School District (SRVUSD) to provide financial support and promote public education in our community.

The SRVEF has relationships with individual donors, local merchants, local service clubs and corporate sponsors and connects their interest in supporting public education with programs that impact children directly among each of the thirty five elementary, middle and high schools within the SRVUSD.

Together, combined with our 29 local school affiliate education and learning fund raising organizations, we collectively raise and donate at least \$7,000,000 each academic year.

A Message from the SRVUSD Superintendent

As a school district, we are extremely proud of the many community partnerships that exist and enable us to provide a world class education to our students. At the very top of that list is the partnership we have with the San Ramon Valley Education Foundation! For over 30 years, SRVEF has provided supplemental funding to our schools that has enhanced the education for hundreds of thousands of students in the San Ramon Valley.

I am excited to say that SRVEF is more vibrant and more visible than ever! Through events and programs like the Primo's Run for Education, Read with SRVEF and the Major Gifts and Endowment Fund, SRVEF continues to provide much needed funding to our schools and is one of our community's most well-respected organizations.

Thanks to the efforts of SRVEF, we are increasing our students' access to cutting-edge technology tools in the classroom, enhancing STEM education (Science, Technology, Engineering and Math) across the district, and providing more professional development opportunities to our teaching staff.

I hope you will choose to support the San Ramon Valley Education Foundation and its causes. Your support means the world to our students and our district!

Sincerely,

Mary Shelton
Superintendent
San Ramon Valley Unified School District

Financial Highlights

The Office of the Executive Director continues to be the hub around which the Board of Directors, volunteers and affiliates operate. Our Executive Director, Cristene Burr and her Project Manager, Celia Lee are the two point people not only running the business of the foundation but also the majority of the fundraising events and programs. Along with the help of our board and over 650 annual volunteers, our Run for Education and our Read-a-Thon have become signature events for the SRVEF and have nearly doubled in size in three short years.

Highlights include:

- Record Primo's participation and net revenue of \$250,000
- Record Endowment Annual Dinner income puts the Endowment Fund over \$1,000,000. SRVEF commences funding the Silicon Valley Math Initiative
- Teacher and School Grant program expanded to \$101,000
- Classroom of the Future Matching Grant program implemented with \$158,000 from SRVEF. 33 district schools participated. Nearly 2000 iPad or equivalent devices added to our schools.

What We Do

District Initiatives

Classroom of the Future Matching Grant Program (\$158,000)

This program came along at a perfect time to inspire wide support for adding much needed iPads and MacBooks to the classrooms of our District. SRVEF saw an opportunity to partner with our Affiliate Education and Learning Funds to invest in technology for students that would allow greater collaboration and access to key apps in courses that would enhance learning and engage students. This wildly successful program supported 34 projects totaling \$1,018,624. The program will add 1857 pieces of computer hardware to our classrooms and will impact 28,015 students. SRVEF is monitoring this infusion of technology very closely with the district technology and professional development team. We have developed an assessment tool for all grant recipients to complete in order to be eligible for future funding and we have scheduled many site visits to see this technology in action.

Coaches Council (\$10,000)

The San Ramon Valley Education Foundation believes in providing educators with the very best professional development training available in all disciplines. We invest in a **Coaches Council** that is made up of the very best teacher mentors in the district from all grade levels. These teachers are mentors who provide training at all school sites. This training involves technology, classroom management, and curriculum. The techniques they learn are immediately applied to classroom instruction through a blended model of technology and content instruction. In 2012/13, they will design similar professional development opportunities for Science teachers, which goes along with both the **Common Core Standards'** concept of shared literacy as well as STEM.

Science Initiative (\$8,500)

For the past 3 years, The San Ramon Valley Education Foundation has funded the K-12 Science Initiative that has increased science literacy for all students and increased the number of students who pursue careers in mathematics, science and engineering. Through the purchase of materials, funding for science fairs and field trips and professional development for our 23 science specialists in the district, we have made great progress toward these goals. In their inaugural year as participants in the Contra Costa County Science and Engineering Fair, students from the SRVUSD completed a remarkable sweep of the Grand Sweepstakes Awards in both the junior and senior divisions. SRVUSD students captured the top three awards in both divisions, qualifying them to participate in both the California State Science Fair and the Intel International Science and Engineering Fair. The six winners led an impressive overall showing by SRVUSD students that included 113 place winners and award recipients.

We are also working to establish an Imagineering Academy for 4-8th grade students that will take place after school to work with scientists, teachers and high school students on projects including but not limited to DNA fingerprinting, Alternative Energy, Sensors and Generators, Computer Simulations, Spectrometers and more. These workshops will be 3 week modules for 90 minutes/day with 15-20 students per session. By bringing the ratio down and giving students exposure to amazing mentors in science we hope to guide more of them to seek careers in mathematics, science and engineering. We are seeking corporate partners to champion this critical program for our children.

School Grants

10 Grants Awarded (\$43,700)

This past spring we awarded school grants as part of our **Educator Grant Awards program**. The goal was to encourage collaboration at a school site and to challenge schools to touch all of their students with this grant money. Funds were made available on July 1, 2012 and are not reflected on the chart below.

The following schools were awarded these grants:

SCHOOL NAME	PROJECT NAME	# OF STUDENTS SERVED
Bollinger Elementary School	iPads as a Universal Learning Tool for Every Classroom	600
California High School	Culinary Arts - A Hands on Approach to Culinary Excellence	210
California High School, Dougherty Valley High School, San Ramon Valley High School, Iron Horse Middle School, Pine Valley Middle School	Reading and Communicating for Success in a World Language	10,000
Coyote Creek Elementary School	A Hands On, Motivative Approach for K-2 Readers by Implementing the “Foundations” program	400
Del Amigo High School	Creating a Virtual Science Lab Through the Use of Laptops	130
Gale Ranch Middle School	Becoming 21 st Century Math Learners Through the Use of iPads	900
Gale Ranch Middle School	Reach for the Finish Line with Nike GPS Watches	700
Hidden Hills Elementary	Immediate Feedback Using ActiveExpression Hand Held Devices in Science	910
Rancho Romero Elementary School	Using iPads to Personalize Learning for All Students	540
Sycamore Valley Elementary School	Interactive Classrooms - Mirroring Images and Apps from an iPad Through the Projector with Apple TV	550

Individual Educator Grant Program

Over 40 Grants Awarded to Individual Educators (\$48,000)

Grants were awarded to individual teachers who applied for classroom grants for everything from technology to classroom supplies to professional development. Grants were evaluated based on relevance, the number of students touched, and attention to 21st Century Learning in the classroom.

All of these grants were awarded at a ceremony that took place in May at Crow Canyon Country Club in San Ramon. We are very proud of our educators and the effort they put into preparing our children to be competitive in this rapidly changing environment. Examples of grants awarded are below:

TEACHER/SCHOOL NAME	PROJECT NAME
Karrie Eustace / Country Club Elementary	Physics, Fitness & Enviro-friendly Fun!: Kid Powered Generators at School
Ethan Schnell / Dougherty Valley High School	Hands on Science: Using “Professional Grade” Science Equipment to Engage Students and Foster a Love and Curiosity of Science
Ann Schinske / Golden View Elementary	The Literature Circle: Using iPads to Create Presentations Using Pictures, Music and Words as Students Collaborate to Create a Book Review
Karen Johnson / Greenbrook Elementary	Using Data Director to Quickly Upload Benchmark Assessments
Valerie Laure / Montair Elementary School	Intro to Engineering Through the Use of Lego Dacta Elementary Simple Machine Program
Donna Rosenberg / Pine Valley & Windemere Ranch Middle Schools	Reader’s Theater - Building Oral Reading Fluency Skills
Rachel McCutchen / Twin Creeks	Read Naturally - A System to Allow Students to Read with Improved Fluency and Comprehension
Adam Liebow / Vista Grande Elementary School	Science at the Touch of an iPad
Shannon Hancock / Windemere Ranch Middle School	Mimio - The Interactive Whiteboard Function to Engage Math Students in the Classroom and Allow Access to the Lessons at Home
Kimberly Carlson / Windemere Ranch Middle School	Individualized Math Lessons! Using IXL.com to Allow Students to Practice Math at the Level They Need

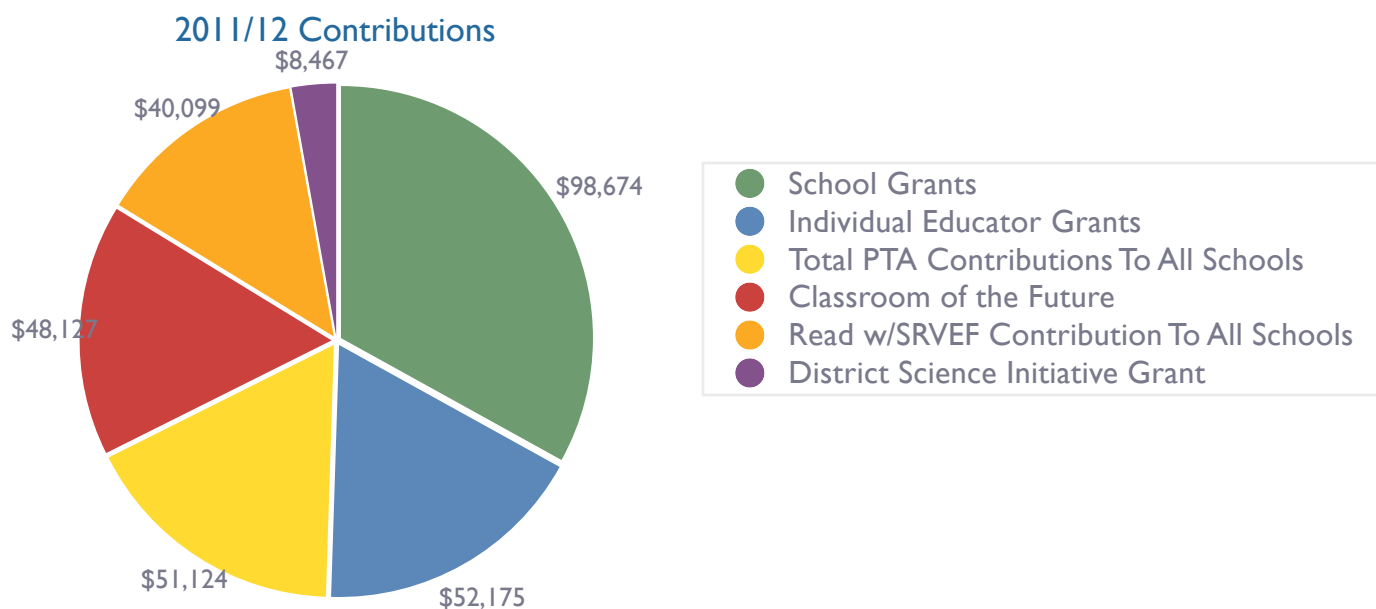

The Annual Fund of the SRVEF

In the last three fiscal years our Annual Fund has donated \$170,000, \$258,000 and \$298,000 in 2009/2010, 2010/2011 and 2011/2012, respectively. In addition, SRVEF has pledged up to \$158,000 out of funds raised for our Classroom of the Future Initiative. These funds will be contributed in the 2012-13 academic year. This increase in our annual support is a direct result of our investment in professional fund-raising talent within our Executive Director's office and our clarification of the needs of the district into the four main causes mentioned above. We believe as we continue to educate the various constituencies about our mission and the increasing needs of the district, we will continue to raise and donate more each year.

Through our events we raise money to support four main causes: Classrooms of the Future; Science, Technology, Engineering & Math programs (STEM); Literacy and Professional Development.

Within our Annual Fund, we support both one time and project based needs district-wide in addition to offering teacher and school-wide grants each year. Within our Endowment Fund, we are building a permanent source of capital to support long term innovative educational programs.

The Endowment Fund of the SRVEF

The vision of the Major Gifts and Endowment Program of the San Ramon Valley Education Foundation is to provide a stable, local funding source that will enable the San Ramon Valley Unified School District to undertake long term and innovative educational programs to enhance the curriculum. This past May, we celebrated the rich history and exciting possibilities of our Education Foundation and put our Endowment Fund on the doorstep of \$1 million at our 30th Anniversary Celebration of Night with the Stars. Our Endowment Fund will now provide sustained support for the **Silicon Valley Math Initiative**. This year we will partner with the SRVUSD and the **Silicon Valley Math Initiative (SVMI)** to train teacher/coaches at every school site who will in turn mentor and support teachers at their school. The training involves learning various strategies to improve instructional practice. In addition our teachers will be using the SVMI's Mathematics Assessment Program (MAP), which provides

rigorous problem solving and critical thinking assessments closely coordinated with California's newly adopted Common Core State Standards. This program has a successful 14 year track record of improving student achievement and understanding of higher level mathematics. It will ultimately affect every student in our district.

The **Endowment Fund** is designed to reach out to the larger community, especially those who may be interested in making gifts for long-term educational programs and curriculum innovation. It is designed to keep the principal portion of each donation intact, while using the dividends, interest and appreciation for curricular innovations. The Education Foundation works in conjunction with the East Bay Community Foundation to facilitate planned giving arrangements.

We can accept a wide range of assets including closely held stock, S corporation stock, limited partnerships and real estate. We also offer a variety of planned gifts, including charitable lead and remainder trusts. Future plans for the earnings of the Endowment Fund are to dedicate available funds towards Professional Development for long term, innovative educational programs. These programs will be designed and implemented by the highly professional and knowledgeable staff of the SRVUSD.

There are many ways to support the Major Gifts and Endowment Program:

- A cash contribution
- A contribution through a will or trust may help fulfill a number of estate planning objectives, including the reduction of federal estate tax liability.
- A gift of appreciated assets can result in income for the life of the donor and the gift of the remainder to the Endowment Fund upon the donor's death.
- A donation of an existing or new whole life policy can leverage a donor's contribution. Existing policies provide a tax deduction for their cash value. Premiums for new and existing policies are also tax deductible.

For additional information, please contact the Endowment Fund at SRVEF Endowment Fund, PO Box 1463, San Ramon, CA or www.srvef.org.

Fundraising Programs

Primo's Run for Education

The Primo's Run for Education is our largest event. A 29 year tradition, it attracted more than 8,500 runners and participants in October of 2011, making this one of the largest single day events in the East Bay. The 2011 Primo's Run for Education raised more than \$250,000 net revenues for our schools!

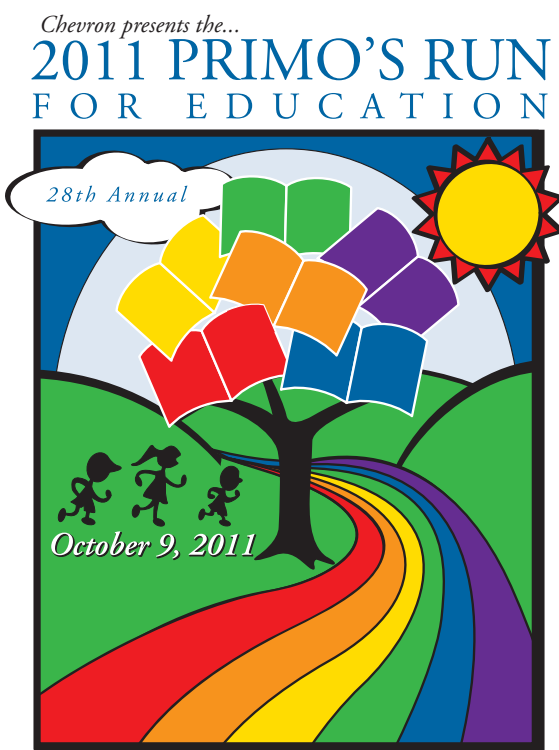

CarboLoad

SRVEF partnered again with the San Ramon Rotary Club to promote and host the Annual CarboLoad Community Pasta Party the evening prior to Primo's Run. The 2011 event raised nearly \$50,000 for our schools!

Read with SRVEF

February is the month we celebrate reading. Children in the school district read 3.5 million minutes. Teachers and librarians praised the program for engaging children and helping them develop a passion for reading while raising critical funds for libraries

- throughout the school district. Several children
- read more than 10,000 minutes individually! The
- 2012 event raised more than \$50,000 in
- community pledges.

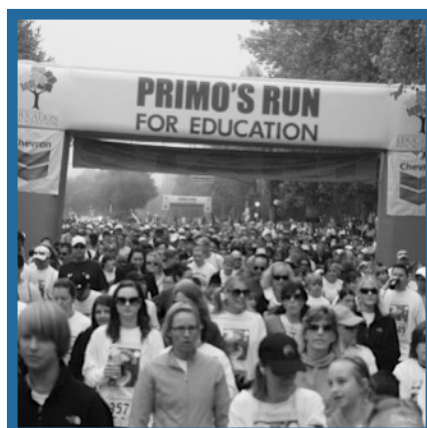

5K & 1/2 Marathon • San Ramon/Danville
Benefits the San Ramon Valley Education Foundation

Friends of the Foundation

Friends of the Foundation is a community membership program designed to raise money to fund our four causes: Classroom of the Future, Professional Development, STEM and Literacy. Members receive discounts from merchants in our community in addition to a variety of other perks to those who join. So far we have invested \$158,000 toward funding Classrooms of the Future.

Annual Dinner

The Major Gifts and Endowment Fund Annual Dinner was the most successful dinner to date for SRVEF. Held in May, this year's honorees were Bill and Carol Dunkle. This year's dinner raised \$80,000 and brought the Major Gifts and Endowment Fund to the historic \$1,000,000 mark.

Our Affiliates

SRVEF and its Affiliates work together in a seamless and efficient manner to support and promote public education in our community in concert with the San Ramon Valley Unified School District and its individual school organizations. These affiliates support and promote educational excellence for their individual schools and raised more than \$7M in 2011 for programs such as:

- Funding Class Sections to reduce class sizes.
- Funding science, music, physical education and art curriculum.
- Funding school grants for facility and/or library improvements.

Our Foundation supports Affiliates by including them under our 501c3 (IRS) banner to reduce their cost and paperwork burden of a separate filing. In addition, they are included under our liability insurance umbrella, which gives them coverage at lower cost than they could find individually.

We also sponsor and lead five Affiliate meetings per year, during which we provide information, training and an open forum for building esprit de corps among affiliates to help them improve their contribution to their schools on a continuous basis.
